Work Experience: I have been with the California Department of Transportation for eleven years and have worked in Design and Project Management Divisions.

PECG Experience: I have been a PECG delegate for the past one year.

Statement: Working as a PECG delegate for the past one year has motivated me to get involved more diligently in PECG activities. I take great pride in being a State Worker and truly believe in the immense potential of Engineers in the California government. I feel passionate about fighting for the cause of PECG engineers be it related to pay parity, benefits, working conditions or equal employment opportunities. As VP Rank and File, I intend to actively communicate with PECG members in the LA section, and communicate their grievances and expectations to the LA section officers and appropriate corporate committees. My long term goal is to participate in PECG bargaining efforts and I want to begin my efforts not only by understanding the needs on LA section's rank and file but also by representing them. Most of you that have worked with me, know me as a dedicated, hardworking, articulate and goal oriented engineer and as VP Rank and File, I promise to bring those same qualities to my engagement at PECG. I am excited about the potential opportunity to represent LA section's Rank and File and look forward to serving you zealously.
